

Wave Vogue Mast

"Exclusive and indestructible performances"

Our brand new Wave Vogue Masts are designed with a bend curve and stiffness ideal to suit all wave sails, and of course the needs of our "Beautiful and Exclusive" Wave Vogue Sails. When a sail is rigged with the right mast, the result is a perfect shape and twist distribution.

The Wave Vogue Mast is a high performance RDM mast designed to improve the performance of your wave and freestyle sails. The perfect polish finish will add soft and smooth sail rotation to the overall sail performances. Wave Vogue Mast are available in 4 different lengths and in two versions: Carbon 75 and Carbon 100.

WAVE VOGUE CARBON 75

With 75% of carbon content the wave vogue mast offers an incredible strength together with a fantastic weight and improved rotation of the sail.
