

## Wave Vogue "Beautiful and Exclusive"

Sizes: 3.3 - 3.7 - 4.0 - 4.2 - 4.5 - 4.7 - 5.0 - 5.3 - 5.6 - 6.1

**The Wave Vogue is in a league of its own. Based on a bullet proof Tri-ply construction, this wave sail has enough detail and special features to become the most exclusive wave sail in the market. The Wave Vogue is designed to perform at its best in pure wave conditions, when power, control and acceleration have to be combined in a perfect balance. Power and control on demand. Resistance, durability and the pride to own a great wave sail that will not go unnoticed on the water....**

**The Wave Vogue opens the RRD door to a hi-performance line of sails for the future.  
"Back to the new roots"**

The all X-ply body panelling plus tri-ply window of the Wave Vogue creates a surf sail with a combination of a smooth feel with ultimate durability. This smooth feel, combined with Pumpability, a Focussed Power Point and "quickly neutral" handling, makes the Wave Vogue the sail of choice for riders looking for top performance at the highest level in gnarly surf conditions. The Wave Vogue is also an excellent choice for lighter/smaller sailors in any conditions due to its short boom length and soft, forgiving handling.

The outline and twist characteristics of the Wave Vogue make it feel lighter and turn tighter in the waves, and therefore ideal to perform in those unforgettable wave sessions.

**CONSTRUCTION:** All X-ply body panels, Kevlar perimeter construction.

**RECOMMENDED MAST:** Vogue mast C100

**SECOND MAST CHOICE:** Vogue mast C75

Size	Boom	Mast	batten	Recommended mast
3.3	138	349	5	RRD WAVE VOGUE C100 RDM 370

### Sail features

- 01. Titanium o-ring outhaul attachment**  
ultra light and many times stronger than standard clew grommets
- 02. Step leech outline**  
creates neutral trailing edge (reduced drag), and promotes smooth progressive twist
- 03. Two ply dacron head sections**  
incredibly durable, soft and easy to roll
- 04. Two ply dacron luff panels**  
for maximum durability and soft feel
- 05. Multiple thread pattern and thread count x-ply films**  
low stretch, long life material for main panels puts strength where you need it
- 06. Webbing protected adjustable head cap**  
protects head web from damage caused by reefs and harsh rigging areas
- 07. Kevlar batten end reinforcement on sleeve**  
high strength and flexible reinforcement for this high stress area

#### Sail features

- 08. Kevlar Molded Tack Fairing**  
incredibly strong and soft protection for you and your board
- 09. Kevlar sleeve protector at sleeve top**  
prevents mast sleeve damage when the sail drags across the reef
- 10. Tack foot piping stitch protection**  
protects the foot area of the sail from damage caused by rough board texture
- 11. Spectra batten tensioner loops**  
unbreakable Spectra yarn for positive batten tensioning
- 12. Flat or Phillips head screw batten tensioner**  
simple, direct drive screw tensioning system that requires no special tools
- 13. 6 to 1 downhaul tack pulley**  
creates in line threading pattern for easy down hauling
- 14. Reversible bungee sail rolling strap**  
keeps your sailed rolled tightly to prevent damage in transit and storage
